RENAD ALSHAHRI

Computer Science Graduate | Artificial Intelligence Track

Abha, Saudi Arabia | Renad3040@gmail.com | +966 53 762 3284

PROFESSIONAL SUMMARY

Computer Science graduate from King Khalid University with First Honors, specializing in Artificial Intelligence. Hands-on experience building and deploying a machine learning web platform (MASARAK) using a Random Forest classifier, plus IT internship experience at Huawei. Skilled in Python, machine learning, and full-stack web development, with strong analytical thinking and a track record of delivering polished, professional technical work.

EDUCATION

B.Sc. in Computer Science — Artificial Intelligence Track Graduated 2026

King Khalid University (KKU), College of Computer Science — Abha, Saudi Arabia

- Graduated with First Honors
- Capstone Project: MASARAK — AI-based university major recommendation platform

EXPERIENCE

IT Intern Summer 2025

Huawei

- Completed a hands-on internship supporting IT operations and gaining exposure to enterprise technology systems and workflows.
- Collaborated with technical teams and applied problem-solving skills in a fast-paced corporate environment.

KEY PROJECT

MASARAK — AI-Based Major Recommendation Platform Graduation Project

King Khalid University | Supervised by Dr. Sajid Ali Khan | Team of 4

- Designed and developed a web platform that recommends university majors to Saudi high school students using a Random Forest classifier.
- Collaborated with a team of four to design the system architecture, train the machine learning model, and build the web interface.
- Applied the full machine learning pipeline: data preparation, model training, evaluation, and deployment.

CERTIFICATIONS

- Machine Learning Specialization — Stanford Online / DeepLearning.AI (2025)
- Introduction to TensorFlow for AI, Machine Learning, and Deep Learning — DeepLearning.AI (2025)
- HCIA-AI V3.5 — Huawei (2025)
- Principles of Artificial Intelligence — SDAIA (2025)

PROFESSIONAL MEMBERSHIPS

- Student Member — Saudi Council of Engineers (SCE)
- Student Member — American Society of Mechanical Engineers (ASME)

SKILLS

Programming & ML: Python, Machine Learning, Random Forest, Scikit-learn, Data Analysis

Web Development: HTML, CSS, Web App Development, Flask

Tools: Git, SQL, Microsoft Office (Word, PowerPoint, Excel)

Languages: Arabic (Native), English (Professional Working Proficiency)
